Aquarian Salon

A conversation - Art, Astrology & Wisdom Teachings

About:

The creation of the Salon and of our triangle of Ludger (Switzerland), Alexis & Risa (USA)

"Aquarian Salon" - The birth of a new project

I have known Risa D'Angeles from a long time ago. Our interest in the wisdom teachings brought us together and we became friends in the context of the World Teacher Trust. I once even met her; it was in 2019 during a meeting with Master Kumar at Mount Shasta, California. Risa is a writer and teacher, and she is the founder and director of the Esoteric & Astrological Studies & Research Institute & College / Night Light News.

Over 18 years, we mainly had contact through written exchanges in various projects, and during nearly 9 years she silently participated, without camera, in the bi-weekly online study groups on wisdom teachings. At the beginning of February 2023, we met for an exchange via Zoom. I had invited her with the idea to see how our collaboration could further develop. Her partner, Alexis, participated sitting in the background. During the start of our conversation, Risa asked if I was interested in an explanation of my astrology chart which I gratefully accepted.

Listening to Risa and Alexis explore my chart was like a dam breaking within and the start of a totally unexpected level of development. They both commented "in stereo" on various dimensions of my chart. They told me how they had been observing me over years giving profound answers to questions concerning the wisdom teachings. They said there are strong aspects in my chart relating to being a teacher. They proposed that I begin to share, offer and present the knowledge I had gathered over decades and that my "Images of Synthesis" paintings, full of profound symbolism, should be the means.

I hesitated and said that I don't see myself talking and people just listening. That there are already many other things going on in my life and that, in case, I would prefer a more interactive form. They suggested that we can cooperate as a triangle. They intensely encouraged me to start teaching on a larger scale than I am doing up to now and they would strongly support me. I was touched by their inner presence; they both have a profound astrological and psychological background and experience in working with people. Our discussion went into many depths and the ideas were thrilling. But there were many questions and I needed time to digest the idea.

We began our discussions with weekly exchanges. When Risa proposed to start a salon, I replied that it reminded me of the salons in France about art and culture in the pre-revolutionary times and of the automobile salon of Geneva - but that the term salon sounds a bit old-fashioned. She replied, "No - an Aquarian Salon". I was thrilled. She said, about "Art, Astrology and Wisdom Teachings" and added "A conversation".

That's it. The fire was on. We agreed to open a public virtual salon four times a year on a Saturday during the signs of the fixed cross - Taurus, Leo, Scorpio and Aquarius. It is being presented by the "Circle of Good Will" and by "Night Light News".

The idea was warmly welcomed by friends, some are also helping with music and other forms of art. The project is sprouting.
